

Transport and Storage of Radioactive Materials: Presented at the 1996 Asme Pressure Vessels and Piping Conference, Montreal, Quebec, Canada, July 21-26, 1996 (Pvp (Series), Vol. 334.)

Twelve papers from a symposium of the July 1996 conference address engineering and regulatory issues associated with transport and storage of radioactive materials, but the subject matter can also apply to solutions for problems in other areas as well. Among the topics: environmental equivalency ana
