

# Allegation Program Annual Trends Report- Calendar Year 2010

U.S. Nuclear Regulatory Commission (NRC) Management Directive 8.8, Management of Allegations, dated November 15, 2010, requires the Agency Allegation Advisor to prepare an annual report for the Executive Director for Operations that analyzes allegation trends. This annual report fulfills that commitment by providing national, regional, and site-specific trend analyses. In addition, significant staff activity in calendar year (CY) 2010 involving the NRCs Allegation Program and related policies warrants mention in this report. The agency finalized enhancements to the Allegation Program based on lessons learned regarding the handling of allegations of inattentive security officers at the Peach Bottom Atomic Power Station. In addition, the allegation staff continues to implement the agency-sponsored alternative dispute resolution process (Early-ADR) for discrimination allegations.
