

Ask a Plumber (AudioTopics)

The first in our home repair and maintenance series, Ask a Plumber is 3-1/2 hours of conversation with a 27-year veteran plumber. In a fun and relaxed manner, your host and guest go through the entire house explaining water and gas systems and fixtures giving fixit and maintenance tips. This should be in your home repair library. The lessons you learn will immediately save you hundred of dollars in plumber house calls.
