

## A Haiku: The Collection

Writing Haiku is a simple and complex process. However, writing engaging Haiku that captivates the audience is a challenge. Author James K. Moore makes it look easy as he presents us with A Haiku. Imagine being in the streets of Chicago in an area where you are exposed to crime and corruption. You are then able to view things to where you can see the beauty and inspiration despite the odds. James is able to display the beauty within his poems. Taking the energy from his environment he composes haiku poems that are channeled from the vision of his long days and short nights in his home town. Throughout the adversity he creates poems that touch on every aspect of life giving you an understanding of the world as he sees it. James wants to share this energy with you. He channeled this vision into this book keeping the true 5-7-5 template. A Haiku the complete series includes a total of seventy five poems in all. Composed of three separate books, this collection of Haiku touches on multiple subjects, from religion to prison and love to animosity.
