

## IEC 60512-12-5 Ed. 1.0 b:2006, Connectors for electronic equipment - Tests and measurements - Part 12-5: Soldering tests - Test 12e: Resistance to soldering heat, soldering iron method

Details a standard test method to assess the ability of a connector to withstand the heating stresses produced by a soldering iron. This title may contain less than 24 pages of technical content.
