

A Ear: A book of short stories, poems, and other various writings.

A collection of short stories, poems, and various writings, this book is a collaboration of several unfinished books and small view into the wild and strange ideas in Mr. Kings mind. In a way, this would be completely fictitious to you as the reader, but to him, these are all very real chapters in his life. These are the thoughts that drive him to be what he is and what he can be... so it was only time to put them all together with a few cornerstone pieces, such as a ear and a broken song. Dive in to enjoy the madness of his realistic humor that is in place of his horrifying denial.
