

Manas - Lost & Found: A Bridge Linking Kyrgyzstans Epic to Ancient Oracles

Rural Kyrgyz, far from the Judeo-Christian world, have many striking biblical traditions. A comparative analysis of Kyrgyzstans national epic Manas and Hebrew scripture reinforces the bond; especially obvious is the similarity between a biblical patriarch Manasseh son of Jacob and the Kyrgyz hero Manas son of Jakyb. Manas also had a exodus that is comparable to Moses exodus. Strikingly, both leaders moved their people with 600,000 foot soldiers. Manas - Lost & Found touches on an unending stream of similarities, many that cannot be categorized by Carl Jungs theories or classified as archetypes. The chapters in this book were essays presented at academic conferences in Kyrgyzstan. The topic was in Central Asias news for several years.
