

Special Equipment professional training materials: metal welding and cutting technology(Chinese Edition)

Paperback. Pub Date: 2011 08 Pages: 142
Publisher: China Metrology Publishing House special equipment professional training materials: metal welding and cutting technology include: the basic principles of SMAW arc cutting. special welding and cutting operations security technology. a typical accident case and the cause of the accident analysis. SMAW operations. the SMAW security requirements. the arc cutting operating and safety requirements. The special equipment professional training materials: metal welding and cutting technology is a special teaching materials for welding and cutting safety management and operating personnel training. can also be used as a reference of the Enterprise Business unit security management cadres and technicians Book. Contents: Chapter SMAW arc cutting. SMAW SMAW arc cutting works and safety features (a) the basic principle (b) SMAW arc cuttin...
