

## Practical Underbalanced Drilling and Workover

Renowned drilling expert Bill Rehm of Far East Energy provides a detailed view of underbalanced drilling operations with terms, calculations, and guidelines. Discusses surface control equipment, downhole tools, gases and equipment, circulation and the fluid column, flow and mud-cap drilling, liquid-gas fluids, foam drilling, and air-gas, mist, and foamed-mist drilling. Also discusses the problems of corrosion and scale and addresses rigging up, flares, and flaring. The current IADC WellCAP curriculum for underbalanced drilling is included as an appendix, along with a glossary and bibliography.
