

Carnal Sacraments, A Historical Novel of the Future

No one would know his real age. Or how he felt inside. Or what he had to do to stay the way he was. In the last quarter of the 21st century, Jeffrey Cooper, an Alabama-raised, executive design star living in a very Americanized Germany, has made a Faustian pact with the huge global economic system running the world. The system will keep him young and razor-sharp, as long as he can stay on top of do his job and keep profits high. But stress from work and the congested, hyper-competitive life around him is killing Jeffrey. Can he keep his stress level a secret from the system itself, his co-workers, and even his own seductive, very daddyish German therapist who has told him that when all else fails, there are angels who can save him, and often we dont know who they are? But one will appear in Jeffrey's life. At first, he seems to be the Devil himself in the guise of a young, gifted painter, offering Jeffrey every kind of sexual and personal excitement, even offering Jeffrey back his own lost soul but will this younger, mysterious and attractive man end up killing Jeffrey, or saving him? In Carnal Sacraments, Perry Brass has created a parable of our time and the future, of an emerging international business culture based on war, and of intense sexuality as a key to religious experience and personal salvation. Author of The Harvest, Warlock, Angel Lust, and The Manly Art of Seduction, Perry Brass continues his exploration of the joining of sexuality, consciousness, and spirituality in this very poignant and mature novel.
