

## Residential Construction Academy House Wiring Video #2: Hardware

Create a direct link between your education/training program and the construction industry! For the first time, textbooks and multimedia are available for many of the residential crafts A- including carpentry, electrical, HVAC, plumbing and facilities maintenance A- that are based on national standards developed by the nations leading builders and remodelers. The result of a strategic partnership between the Home Builders Institute (HBI) of the National Association of Home Builders and Delmar Learning, this new series from the Residential Construction Academy is the perfect way to introduce people of all ages to the building trades while guiding them to development of essential workplace skills. The House Wiring Video Series is an integrated part of the Residential Construction Academy House Wiring package. The series contains a set of eight, 20-minute videos that provide step-by-step instruction for wiring a house.

All the essential information is covered in this series, beginning with the important process of reviewing the plans and following through to the final phase of testing and troubleshooting. Need to know NECA articles are highlighted, and ElectricianAs Tips and Safety Tips offer practical advice from the experts. The complete set includes: Video #1-Safety and Safe Practices, Video #2: Hardware, Video #3: Tools, Video #4: Initial Review of Plans, Video #5: Rough-In, Video #6
