

Fire in the Belly: (A Stage Play)

The attitude of squandering and embezzling the properties and funds belonging to orphans and people who are in need is fast eating into our communities. People do not care to deceive philanthropists in order to get funds for so-called orphans and needy people only to end up using it for themselves. It is a lot more dangerous when religious people who are supposed to know better are also found in this kind of act. Fire in the Belly seeks to make such people understand that indeed when they misuse the properties of orphans and of needy people, they do nothing but eat fire into their bellies.
