

## Songs for Tomorrow: Cameroon Poetry in English

... The poems in this collection, consequently, speak the immortal language of confusion, betrayal, anger, hate, and despair, in relation to Cameroon and the world at large, yet there is room for true love, and forgiveness. It is true that in an increasingly unstable nation and a world that seems to have lost its head, the works of writers, such as the poets here assembled, must engage in a most powerful manner the goals and ethos of the entire human race. These then are poems by poets who are desperate yet practically involved in an individual but equally collective effort to trigger positive change throughout their national territory and wherever the wailing voices of mankind suffering under the yoke of oppression, disillusionment, and despair can be heard. Consequently, these are poems shaped by the poets experiences and those of their societies as a whole. These poets mean their poems to reshape the cosmos, to shatter especially government sponsored illusions by making concrete the reality which has, until of recent, only been a mirage to the common man; hence, the socio-cultural nature of the contextual definition of this volume.
