

Structural Dynamic Assessment of the Gn2 Piping System for NASAs New and Powerful Reverberant Acoustic Test Facility

Structural Dynamic Assessment of the
GN2 Piping System for NASA's New
and Powerful Reverberant Acoustic
Test Facility

The NASA Technical Reports Server (NTRS)
houses half a million publications that are a
valuable mean

The NASA Technical Reports Server (NTRS) houses half a million publications that are a valuable means of information to researchers, teachers, students, and the general public. These documents are all aerospace related with much scientific and technical information created or funded by NASA. Some types of documents include conference papers, research reports, meeting papers, journal articles and more. This is one of those documents.
