

The Lure and Lore of Backwoods and Bucks

Chets world shifted without much warning. The life he led feeding his family and making a living off hunting and fishing the land, bayous and rivers of Louisiana was dying before his eyes. Woods were now farmland, and sport hunters had created the land lease. Chets rebellion, fight with the new laws, and journey to a new way of using his skills is a story of dangerous adventure. At the same time it sheds light on recent history from the hunters point of view.
