

Thunder in the Blood

An investigative journalist uncovers the story of the decade in his quest to seek the truth about the Gulf War. As the West congratulates itself on the restoration of Kuwait, journalist Wesley Keogh begins to rake over the wars dying embers, discovering that the war may have been fought to a pre-arranged script, making the West's finest hour a sham. Alerted to Keogh's investigations, MI5 dispatch a young agent, Sarah Moreton, to rein him in. But Keogh is HIV positive; what kind of pressure can Moreton exert on a man who is already dying of AIDS?
