

Twisted Poems of a Warped Mind

In the authors own words, These are classics in my own mind. Readers beware! Some of you will be shocked by parts of this book. Vegetarians may be disturbed by turkeys on the menu, or kiddies in a witches freezer. Others could well get excited by all the chopping, reaping and killing or be offended by the mushy poems professing love. If you prefer a little titillation, be warned, there are no refunds or compensation for bruised buttocks from the house of sin. Not put off by any of the above? Maybe just a bit by the mushy love Desensitised to violence and killing? Though the titillation might be thrilling Rhyming or not, its all the same Sounds as if you would be game So take the plunge, if you dare Then leave a review it shows you care.
