

# Chemical unit operations (Zhou Changli) (second edition)(Chinese Edition)

Language:Chinese.Paperback. Pub Date: 2015-5-1 Pages: 348 Publisher: Chemical Industry Press chemical species. many unit operations. each of the unit operations contains a very rich content. This book introduces a selection of specialty training program based on a typical eleven chemical unit operations. including fluid transport. sedimentation and filtration. heat transfer. evaporation. distillation. absorption. extraction. crystallization. drying. adsorption. membrane separation technology. Each chapter has review questions. including the math exercises with answers. Appendix end of the book there is. check the data used for problem solving. The materials in the preparation process according to the modern concept of vocational education. vocational education and training around the goal. based on the professional competence of students and post chemical enterprise technolo...
