

## Velvet Voice & Vice (Marshall E Gass Poetry) (Volume 5)

The 5th volume of Poetry clearly expresses the interest Marshall takes in publishing poems. Often the crossover from Prose into Poetry is quite obvious (Prosetry). In between the task of editing the 2nd and 3rd part of his Novels: The Chrysanthemum Trilogy, he finds much pleasure in dabbling in poetry of all formats and genres. The first volume: Whispers in a Thunderstorm pulled together a collection of poems that were written over a 5 decade period. The 2nd Volume Chiaroscuro emphasised a rejuvenation of poetic skills and concepts. The 3rd volume: Continents on Fire focused on the unrelenting social and political global scene. The 4th volume: Tequila & Temptation played on themes of adulthood, parenthood and finally this 5th volume: Velvet Voice & Vice deals with the theme of relationships, love and laughter and new friendships. The different stages of growth are apparent in these five published volumes. Enlist as a fan and enjoy this journey into poetry landscape with all its beauty and splendour, bask in the sunshine of these exquisite verses and use hundreds of ideas and concepts in your work. Readers on the online websites, where these poems are regularly published, have commented on Marshalls creative energies and the multi-dimensional quality of his prose and poetry.
