

## The Murder Of Whitney Houston

On December 14, 2013 I (a freelance journalist) met the man who confessed to using a method to kill Whitney Houston that not even the autopsy on her body was able to detect. The mans name is Snitch. This is the entire interview in which Snitch revealed the motive of the singers murder, what was used to kill her, the evidence, and the people in involved. The most shocking story of conspiracy and murder you will ever read.
