

## Advanced Processing and Manufacturing Technologies for Structural and Multifunctional Materials V: Ceramic Engineering and Science Proceedings, Volume 32, Issue 8

This book is a collection of papers from The American Ceramic Societys 35th International Conference on Advanced Ceramics and Composites, held in Daytona Beach, Florida, January 23-28, 2011. This issue includes papers presented in the 5th International Symposium on Advanced Processing and Manufacturing Technologies for Structural and Multifunctional Materials and Systems on topics such as Design-Oriented Manufacturing and Novel Forming and Sintering. Papers from a special session held in honor of Katsutoshi Komeya of Yokohama National University, Japan are also included.
